

Usage

- `|filter=` the number of the filter that uses this message, if it is only used by one filter. *Only visible in the AbuseFilter interface.*
- `|action=` – the type of filter. Acceptable values are **warn** **disallow** **deauto** **block** **degrouop**.
- `|friendly=` – **yes** changes the display slightly to be a little less bitey.
- `|text=` the text of the message.

Examples

```
{{edit filter warning
|action    = warn
|friendly  = yes
|text      = You've done something unconstructive, but we don't want to bite you
}}
```

You've done something unconstructive, but we don't want to bite you

```
{{edit filter warning
|action    = warn
|friendly  =
|text      = You've done something unconstructive, and we're more sure it's a Bad Idea
}}
```

You've done something unconstructive, and we're more sure it's a Bad Idea

```
{{edit filter warning
|action    = disallow
|friendly  = yes
|text      = You've done something unconstructive and we're stopping you, but we don't want to bite
}}
```

You've done something unconstructive and we're stopping you, but we don't want to bite you

```
{{edit filter warning
|action    = disallow
|friendly  =
|text      = You've done something unconstructive and we're stopping you, more forcefully
}}
```

You've done something unconstructive and we're stopping you, more forcefully

```
{{edit filter warning
|action    = block
|friendly  =
|text      = We're blocking you
}}
```

We're blocking you

```
{{edit filter warning
|action    = degroup
|friendly  =
|text      = Bye bye groups
}}
```

Bye bye groups
