

Template:Lower/doc

Use to lower some text or other element a specified number of units (recommend proportional 'em' units), otherwise by a default 0.6em:

`{{lower|Nem|text/element}}` to lower by *N* em units

(e.g. `{{lower|0.4em|This is the text to lower.}}`)

`{{lower|text/element}}` to lower by default 0.6em.
