Usage

Guts: {| **style="background:{{{2}}};"** | **{{{3}}}** |

Sets foreground and background colors of a given text. They can be specified by name or in the format #ddddd (RGB hex triplet).

Unless in the case of personal use on a user page, use this template with great caution:

- a poor contrast may make the text difficult or impossible to read
- the contrast can be experienced as even poorer in the case of color blindness
- links have a color according to user settings; they become invisible if this color is equal to the background color

Examples

{|col#ffffff|#000000|From FORwiki, the romanian foresight website.} gives:

From FORwiki, the romanian foresight website.

{|col#aa0000|#009999|From FORwiki, the romanian foresight website.} gives:

From FORwiki, the romanian foresight website.

{|colwhite|black|From FORwiki, the romanian foresight website.} gives:

From FORwiki, the romanian foresight website.

{|colyellow|grey|From FORwiki, the romanian foresight website.} gives:

From FORwiki, the romanian foresight website.

{|colbluel|silver|From FORwiki, the romanian foresight website.} gives:

From FORwiki, the romanian foresight website.

{{colgrey|yellow|From FORwiki, the romanian foresight website.}} gives:
